

To whom it may concern:

I am a very busy mother of 4 boys who also holds down a full-time and part-time job. My husband works an average of 55 hours per week on his job. We are very civic minded parents and volunteer for our children's schools and our church. We get our children involved when ever we can, also. I am telling you this to prove a point, we value our family time! We signed up for the "No Call List" during the first of the sign up drives. We sit around the living room during the "prime" telemarketing time, 4-8 p.m., and discuss our days. How was school? What did you learn in math, reading, social studies, etc.? Did you have a good day today, Daddy? Reducing the restrictions on the No Call List would allow people to take that time away from my family. Please do not allow that to happen. We all see on T.V. the commercials on how strange it is to have families sit down to eat dinner together. We do! My husband and I believe that is how we raise responsible and respectful children who will grow to be productive members of society. Please do not take that away from us.

Thank you for your attention and understanding.

Respectively,
Candace L. Herzog
